School District Software

SOFTWARE FOR AT DECISION MAKING

Software Features

The Learning Needs section of the RiverDeep Interactive Learning website provides a free search engine for a variety of software programs that meet the learning needs of many young children with disabilities.

<http://www.learningneeds.com/index.jhtml> As an account holder, you can download software or play some of Edmark's favorite programs online (e.g. Millie's, Bailey's, Thinking Things) to see if they are appropriate for your students. Other free downloads are also available.
